APPENDIX A: SCHOOLS SUBJECT TO WILLIAMS MONITORING - 2008-09 (BASE 2006 API)	36

INTRODUCTION

The Williams Settlement and subsequent legislation address four key areas and assign specific monitoring responsibilities to County Superintendents of Schools. These key areas are:

1. **Instructional materials** – Students must have sufficient access to standards aligned materials or textbooks;
2. **Facilities maintenance** – Schools must be in “good repair” (safe, clean, and functional);
3. **Teacher credentialing** – Teachers must have proper certification or training, especially for classes with 20% or more English Learners (EL); all classes must be assigned a permanent teacher of record; and
4. **Public reporting** – School Accountability Report Cards (SARC) must include information on Williams; non-compliance with Williams must be incorporated in Uniform Complaint Procedures and classroom posting of notices.

This report summarizes the findings of the Williams monitoring in the 2008-09 school year. Teacher credentialing was monitored during the 2008-09 school year and teacher vacancies were monitored during the first semester of the 2009-10 school year. All instructional materials and facilities monitoring was conducted during fall 2009. The results of these monitoring activities are presented in the following sections. All monitoring was based upon a list of Deciles 1-3 schools according to 2006 API scores (Appendix A).

This report is divided into two sections. The first section provides a summary of the findings in each of the four areas. The second section provides a summary for each school district subject to Williams monitoring.

SUMMARY OF FINDINGS

Based upon the 2006 Base API results, there were 46 schools in 10 school districts that were subject to Williams monitoring. These 46 schools had a combined 2008-09 enrollment of 30,936, approximately 12% of the total enrollment in Santa County (n = 261,945).

The districts and schools are listed below. The type of school (elementary, middle, or high school) is designated by (E), (M), or (H). Schools that are subject to additional state monitoring because they have failed to meet academic growth targets are designated SAIT schools, and are not subject to Williams Instructional Materials monitoring (because the SAIT teams will monitor this) and are identified by an asterisk (*) in the table. There are six SAIT schools in Santa Clara County.

District Name	School Name (N = 46 schools)	2008-09 Enrollment	2006 API Decile Ranking

* SAIT School

Instructional Materials

Students must have sufficient access to standards aligned materials or textbooks.

With the exception of the six SAIT schools, all Deciles 1-3 schools must be monitored within the first four weeks of school. A sampling methodology is used, in which no less than 25% of the classes, by grade and/or by subject, is visited by a Williams monitor to determine that each student has a district adopted, standards aligned textbook for use in class and at home.

In the fall of 2009, staff from the Santa Clara County Office of Education (SCCOE) visited 618 classrooms. There has been improvement since Williams monitoring was first implemented in the spring of 2005. In that first year, 19 of the 40 (47.5%) schools monitored of classrooms were found to be deficient. In the fall of 2009, seven of the 40 (17.5%) schools monitored had deficiencies. Eleven classrooms (2%) were found to have insufficient textbooks. All textbook insufficiencies were corrected by the eight weeks of the opening of school.

Facilities Maintenance

Schools must be in "good repair" (safe, clean, and functional).

All Deciles 1-3 schools (2006 API) are subject to facility monitoring by staff from the County Office of Education. The inspections are conducted by trained teams using the Facilities Inspection Tool (FIT), developed by the California Department of Education's Office of Public School Construction to determine if a school is in "good repair" as defined by Education Code Section 17002(d) and to provide a rating of its condition. The FIT was first used in 2007 and was revised for fall 2009. The FIT evaluates school facilities in 15 areas and an overall "good repair" rating is determined according to the following standards:

Rating	2009 Overall Score	2007 & 2008 Overall Score
Exemplary	99% – 100%	98% – 100%
Good	90% – 98.99%	85% – 97.99%
Fair	75% – 89.99%	67% – 84.99%
Poor	0% – 74.99%	0% – 66.99%

The 15 areas of facility review are:

- Gas Leaks
- HVAC Mechanical Systems
- Windows/Doors/Gates/Fences
- Interior Surfaces
- Hazardous Materials
- Structural Damages
- Fire Safety
- Electrical
- Pest/Vermin Infestation
- Drinking Fountains
- Restrooms
- Sewer System
- Roofs
- Playgrounds/School Grounds
- Overall Cleanliness

In general, the 46 schools monitored in fall 2009 received an average rating of "good repair" with an average overall rating of 95.4% (Good). This is lower than the 2007 average of 98.4% (Exemplary), the first year in which the FIT was used and slightly lower than the 2008 average of 96.3% (Good).

Year	Santa Clara County Average Score	Rating
2007	98.4%	Exemplary
2008	96.3%	Good
2009	95.4%	Good

Teacher Credentialing

Teachers must have proper certification or training, especially for classes with 20% or more English Learners; all classes must be assigned a permanent teacher of record.

Staff from the SCCOE Credentials Unit monitors all Williams schools to ensure that teachers are appropriately credentialed for their assignment, including authorization for teaching students who are designated English Learners. This monitoring is conducted over the course of the school year, and the findings of the 2008-09 monitoring are presented in this report.

In 2008-09, a total of 35 teacher misassignments were identified, a decrease of 51 teacher misassignments identified in 2007-08 (n = 86). All teacher misassignments were corrected by the end of the school year. The most common misassignments were for teachers without appropriate authorization for teaching EL students; the second most common misassignments were found in special education classrooms. Details regarding teacher misassignments are included in the monitoring of findings by school district in Section II of this report.

The Credentials unit also monitors teacher vacancies in Williams schools. A vacancy is defined as existing when a permanent, credentialed teacher has not been assigned for the school year. In the first semester of 2009, five teacher vacancies were found in the 46 schools. Chavez, Dorsa, George and Goss (Alum Rock Union School District) and Overfelt (East Side Union High School District) each had one vacancy in the first semester of 2009.

Public Reporting

School Accountability Report Cards (SARC) must include information on Williams; non-compliance with Williams must be incorporated in Uniform Complaint Procedures and classroom posting of notices

The Williams Settlement requires school districts establish procedures for notifying parents, teachers, students, and community members of their rights and to make complaints regarding compliance with Williams requirements for instructional materials, teacher qualifications and vacancies, and facilities. Districts are required to post notices of these rights in all classrooms and to establish procedures for responding to and resolving the complaints.

Additionally, districts are required to report to their elected boards on the number, type of complaint (i.e., textbooks, teachers, or facilities), and status (resolved/unresolved) of complaints on a quarterly basis. The districts are also required to submit these quarterly reports to the County Superintendent of Schools.

Since 2008, compliance with the Valenzuela Settlement (regarding the provision of supplementary support and instruction to students who had not passed the California High School Exit Exam – CAHSEE) was included in the reporting requirements.

A summary of the number and type of complaints received by each district is presented in the following table.

Williams & Valenzuela Complaints by District								
District	Textbooks		Teachers Vacancies & Misassignments		Facilities		CAHSEE Intensive Instruction	
	2008-09	2007-08	2008-09	2007-08	2008-09	2007-08	2008-09	2007-08

* Data not collected for Elementary School Districts

FINDINGS BY SCHOOL DISTRICT

Alum Rock Union School District

Instructional Materials:

During the first four weeks of the 2009-10 school year, staff from the Office of the Santa Clara County Superintendent of Schools conducted visits to twelve schools in the district. No insufficiencies were identified.

Alum Rock Union School District Instructional Materials 2009		
School	Findings	Follow-Up Action
Chavez Elementary	No findings of insufficiencies	None needed
Cureton Elementary	No findings of insufficiencies	None needed
Dorsa Elementary	No findings of insufficiencies	None needed
Fischer Middle	No findings of insufficiencies	None needed
George Middle	No findings of insufficiencies	None needed
Goss Elementary	No findings of insufficiencies	None needed
Hubbard Elementary	No findings of insufficiencies	None needed
Meyer Elementary	No findings of insufficiencies	None needed
Ocala Middle	No findings of insufficiencies	None needed
Pala Middle	No findings of insufficiencies	None needed
Rogers Elementary	No findings of insufficiencies	None needed
Slonaker Elementary	No findings of insufficiencies	None needed

School Facilities:

During the fall of the 2009-10 school year, staff from the Office of the Santa Clara County Superintendent of Schools conducted visits to 14 schools in the district. Zero schools were rated “exemplary,” 11 schools were rated “good,” two schools were rated “fair” and one school was rated “poor.”

Alum Rock Union School District Facilities 2009		
School	Facility Inspection Tool (FIT)	
	Score	School Rating
Arbuckle Elementary (SAIT)	95.3%	Good
Chavez Elementary	94.5%	Good

Hubbard Elementary	96.4%	Good
Meyer Elementary	72.8%	Poor
Ocala Middle	95.2%	Good

Alum Rock Union School District Facilities 2009

Pala Middle	90.7%	Good
Rogers Elementary	97.9%	Good
Shields	94.9%	Good
Slonaker Elementary	82.9%	Fair

School Accountability Report Card:

The School Accountability Report Cards were determined to include the required Williams elements.

Teacher Misassignments and Teacher Vacancies:

The SCCOE Credentials Department conducted a review of teacher credentials and assignments at Deciles 1-3 schools during the 2008-09 school year. A total of 10 misassignments were identified. All misassignments were corrected during the school year.

Alum Rock Union School District Teacher Misassignments 2008-09

School	Teacher Misassignments	Total
Arbuckle	SDAIE	1
Chavez	None	0
Cureton	None	0
Dorsa	Administrative	1
Fischer	Science	1
George	SDAIE	1
