INTRODUCTION

This report summarizes the 2011 findings of specific monitoring responsibilities of County Superintendent of Schools as identified by the Williams Settlement and subsequent legislation in four key areas:

1. **Instructional materials** – Students must have sufficient access to standards aligned materials or textbooks;
2. **Facilities maintenance** – Schools must be in “good repair” (safe, clean, and functional);
3. **Teacher credentialing** – Teachers must have proper certification or training, especially for classes with 20% or more English Learners (EL); all classes must be assigned a permanent teacher of record; and
4. **Public reporting** – School Accountability Report Cards (SARC) must include information on Williams; non-compliance with Williams must be incorporated in Uniform Complaint Procedures and classroom posting of notices.

Teacher credentialing was monitored during the 2010-11 school year and teacher vacancies were monitored during the first semester of the 2011-12 school year.

All instructional materials and facilities monitoring was conducted during fall 2011 based upon a list of Deciles 1-3 schools according to 2009 Base API scores and/or schools designated under the Quality Education Investment Act (QEIA).

SUMMARY OF FINDINGS

Based upon the 2009 Base API results and/or QEIA designation, there were 51 schools in 12 school districts that were subjected to instructional materials and facilities monitoring that required physical inspections. The 51 schools had a combined 2010-11 enrollment of 33,858, approximately 13% of the total 2010-2011 enrollment in Santa Clara County (n = 266,267). The type of school (elementary, middle or high) is designated by (E), (M), or (H) in the table below.

District Name	School Name (N = 51 schools)	2010-11 Enrollment	2009 API Decile Ranking

Total Enrollment		33,858	

* QEIA school (N=7)

Instructional Materials

Students must have sufficient access to standards aligned materials or textbooks.

All Decile 1-3 and/or QEIA schools must be visited within the first four weeks of school. A sampling methodology is used, in which at least one in every five classes in every section, by grade and/or by subject, is visited by a Williams monitor to determine that each student has a district adopted, standards aligned textbook for use in class and at home.

In the fall of 2011, staff from the Santa Clara County Office of Education (SCCOE) visited 784 classrooms. Williams monitoring was first implemented in the spring of 2005. In that first year, 19 of the 40 (48%) schools monitored had classrooms that were found to be deficient. In the fall of 2011, 8 of the 51 (16%) schools monitored had deficiencies. Forty-six classrooms (6%) were found to have insufficient textbooks during the initial inspection. All textbook insufficiencies were corrected within three days of the initial inspection (corrections may include placing orders to the textbook publisher).

2011 Instructional Materials Summary

Number of Districts Visited	Number of Schools Visited	Number of Classrooms visited	Number of Classrooms with Insufficient Books (initial inspection)	Number of Schools that had Classrooms with Insufficient Books (initial inspection)	Number of Textbooks Needed (initial inspection)
12	51	784	46	8	1,339

Facilities Maintenance

Schools must be in "good repair" (safe, clean, and functional).

All Decile 1-3 (2009 API) and/or QEIA schools are subject to facility inspection by staff from the County Office of Education. The inspections are conducted by teams using the Facilities Inspection Tool (FIT), developed by the California Department of Education's Office of Public School Construction to determine if a school is in "good repair" as defined by Education Code Section 17002(d) and to provide a rating of its condition. The FIT was first used in 2007 and was revised in 2009. The FIT evaluates school facilities in 15 areas and an overall "good repair" rating is determined according to the following standards:

Rating	Overall Score
Exemplary	99% – 100%
Good	90% – 98.99%
Fair	75% – 89.99%
Poor	0% – 74.99%

The 15 areas of facility review are:

- Gas Leaks
- HVAC Mechanical Systems
- Windows/Doors/Gates/Fences
- Interior Surfaces
- Hazardous Materials
- Structural Damages
- Fire Safety
- Electrical
- Pest/Vermin Infestation
- Drinking Fountains
- Restrooms
- Sewer System
- Roofs
- Playgrounds/School Grounds
- Overall Cleanliness

The 51 schools monitored in fall 2011 received an average rating of "Good" with an average score of 93.0%. This is lower than the 2007 average of 98.4% (Exemplary), the first year in which the FIT was used, and continues the downward trend in facilities monitoring results observed since 2007.

Facilities Inspection Summary		
Year	Santa Clara County Average Score	Rating
2007	98.4%	Exemplary
2008	96.3%	Good
2009	95.4%	Good
2010	93.0%	Good
2011	93.0%	Good

Teacher Credentialing

Teachers must have proper certification or training, especially for classes with 20% or more English Learners; all classes must be assigned a permanent teacher of record.

Staff from the SCCOE Credentials Department monitors all visited Williams schools to ensure that teachers are appropriately credentialed for their assignment, including authorization for teaching students who are designated English Learners. This monitoring is conducted over the course of the school year, and the findings of the 2010-11 monitoring are presented in this report.

In 2010-11, a total of 23 teacher misassignments were identified (5 in Alum Rock Union School District, 2 in Campbell Union High School District, 5 in East Side Union High School, 2 in Franklin-McKinley School District, 1 in Morgan Hill Unified, 3 in Oak Grove Elementary School District, 1 in San Jose Unified, 1 in Santa Clara Unified, 3 Sunnyvale School District). All teacher misassignments were corrected within 30 days of being identified. Details regarding teacher misassignments are included in the monitoring of findings by school district later in this report.

The Credentials Department also monitors teacher vacancies in visited Williams schools. A vacancy is defined as existing when a permanent, credentialed teacher has not been assigned for the school year. In the first semester of 2011, five teacher vacancies were found in the 51 schools (3 in Alum Rock Union School District, 1 in Mount Pleasant School District, and 1 in San Jose Unified School District).

2011 Williams Teacher Monitoring Summary			
Number of Districts Monitored in 2010-11	Number of Schools Monitored in 2010-11	Misassignments in 2010-11	Vacancies (First Semester 2011; N = 51)
12	51	23	5

Public Reporting

School Accountability Report Cards (SARC) must include information on Williams; non-compliance with Williams must be incorporated in Uniform Complaint Procedures and classroom posting of notices

The Williams Settlement requires school districts establish procedures for notifying parents, teachers, students, and community members of their rights and to make complaints regarding compliance with Williams requirements for instructional materials, teacher qualifications and vacancies, and facilities. Districts are required to post notices of these rights in all classrooms and to establish procedures for responding to and resolving the complaints. Additionally, districts are required to report to their elected boards on the number, type of complaint (i.e., textbooks, teachers, or facilities), and status (resolved/unresolved) of complaints on a quarterly basis.

The districts are also required to submit these quarterly reports to the County Superintendent of Schools. Since 2008, compliance with the Valenzuela Settlement (regarding the provision of supplementary support and instruction to students who had not passed the California High School Exit Exam – CAHSEE) was included in the reporting requirements. A summary of the number and type of complaints for Santa Clara County (all 32 districts plus Metropolitan Education District and the Santa Clara County Office of Education) is presented in the following table.

Williams & Valenzuela Complaints Summary 2010-11				
	Textbooks	Vacancies & Misassignments	Facilities	CAHSEE Instruction
Berryessa Union	0	0	1	0
East Side Union	0	0	11	0
Franklin-McKinley	1	1	6	0

FINDINGS BY SCHOOL DISTRICT

Alum Rock Union School District

Instructional Materials:

During the first four weeks of the 2011-12 school year, staff from the Office of the Santa Clara County Superintendent of Schools conducted visits to 14 schools in Alum Rock. Insufficiencies were identified in six schools that were remedied within 72 hours.

2011 Alum Rock Union School District Instructional Material Inspection Results		
School	Number of Textbooks Needed (initial inspection)	Number of Insufficiencies after 72 Hours of Initial Inspection
